

Career Certificate Programs

"Gatlin has provided exceptional support for our online classes and has helped us to become a leader in Georgia for non-credit training delivered outside of the classroom."

Barbara Calhoun
Dean of Continuing Education at
Kennesaw State University

"The ability to complete this course from home and to move at my own pace made me feel I could take my time and completely absorb all the information. I have truly enjoyed this learning experience."

Colandra Stode
University of Alabama
Birmingham

Prepare your students for employment in some of today's hottest careers with ed2go/Gatlin's comprehensive, affordable, and self-paced online Career Certificate programs! You'll expand your reach to new students and generate additional revenue. Gatlin is the world's largest and most successful provider of asynchronous, online career-training programs and is now a member of the ed2go/Cengage Learning team.

Busy students can begin these programs at any time and then learn at their own pace. Upon successful completion of all required coursework, students will receive a Certificate of Completion from your school.

You choose how to deliver the courses to your students, using either a hosted customized site, or managing registrations and courses on your Web site. We offer outstanding courses in the following areas:

- Business and Professional
- Healthcare and Fitness
- IT and Software Development
- Management and Corporate
- Media and Design
- Hospitality and Gaming
- Skilled Trades and Industrial

Benefits:

- There is never any up-front cost to your school
- Online certificate programs are a great way to generate revenue
- We provide the student with any required materials
- Top-notch facilitators provide support and motivation
- Most courses are designed to be completed in 90-180 days
- We provide information support through our Web site, by phone, and by e-mail
- We encourage students to contact us at any time through live chat
- We offer a financial loan program that provides payment options for many students who otherwise could not register
- Once students register, we provide career counselors who empower them to take control of their professional development and job search through career counseling focused on resume building and information services

Frequently Asked Questions

How do I get started?

Your representative will send you the appropriate documentation to get you started. Simply return it and we will do the rest.

Can I set my own pricing?

That depends on which student lead management and registration system you choose. We have a wholesale price to you and a suggested retail price for students. A hosted site will adhere to suggested retail pricing. Sites hosted and managed by you allow you to set your price below the suggested retail price.

How will my students enroll and pay?

The options for student registration and payment depend on which student lead management and registration system you choose. Speak with your representative about which system will work best for you.

Can I track the progress of my students?

Yes, we will grant you immediate access to student progress information at your Online Administration Center.

Will students need special technical skills?

Students should be comfortable with basic computer activities, such as sending and receiving e-mail, downloading, and using the Internet. Each course also has specific prerequisites which need to be met.

Will students need special software to participate in these programs?

If special software is needed, it will be listed in the description.
